SUPPLIES:

- Egg spinner ornaments printed on cardstock
- Decorative string or ribbon
- Paper Glue
- Glitter, glitter-glue or gold paint for edging

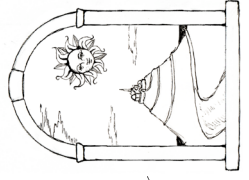

Directions:

1. Cut out the spinner ornaments and fold along vertical axis.
2. Spread glue on the back of one card stock egg. Affix to second card stock egg so they share an edge.
3. Knot string or ribbon so that it forms a long loop, about four inches long with a three-inch tail.
4. Lay the tail of the ribbon onto the glue along the folded axis of the two glued eggs.
5. Add more glue so that the third card stock egg can be added, sandwiching the end of the ribbon between the faces of the ornament.
6. Edge with glitter, glitter-glue, or gold paint as desired.
